

It is now confirmed that Gilbert Martin has died and i cannot help myself shedding some tears for the great man I had the honor to invite and meet at Las vegas. he is no doubt a pioneer who dreamed of having a Creole institute in USA went as far as defying the USA establishment for the recognition of Creoles as a people, the oforgotten people of the USA.

I wiil write an "hommage" to Gil and if anyone do have pics of him, forward to me and I wish all of you can also write something about him as well.

Nolan,

I hope you can have a meeting with other creoles and see how we can have his name remembered. Please liases with Terrel Delphin to have the CHC pay tribute to him as well.

Augustine,

I thisnk youdo hacve him on the French Creole site.
rapahele, See if you can write something about him.

We should not forget how a militant he was. Creoles of USA should continue to take up the challenge.

Let him rest in peace and may his legacy lives on.

We will remember him.

Pass on to as many creoles as you possibly can.

thanks

George.
